"Domestic Engineering" Quarterly Index

Vol. LIX.—April 6 to June 29, 1912

This is the ninth index of "Domestic Engineering," an index for each quarter appearing at the end of that quarter. We ask our readers to note the value of this index for reference, calling special attention to the separate classification of the departments of "Business Management" and "Questions and Answers," and to the "Inventions and Improvements," by means of which you can see that your stock is up-to-date.

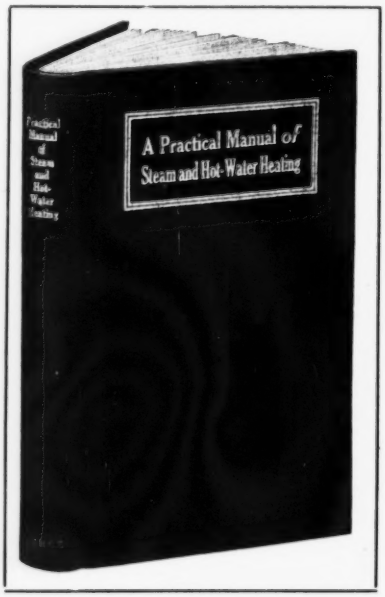
WHAT SIZES OF PIPES SHOULD BE USED IN STEAM-HEATING PLANTS?

This is an every-day question to the steam fitter. His success largely depends upon finding the correct answer.

"SIZES OF FLOW AND RETURN STEAM MAINS"

is a complete summary of present-day theory and practice as reflected by the opinions of those best competent to judge. No steam fitter can afford to be without this book. Bound in boards—Price, postage prepaid, 50 cents.

DOMESTIC ENGINEERING, 445 PLYMOUTH COURT CHICAGO, ILL.



RECOMMENDED UNRESERVEDLY

To All Who are Interested in Steam and Hot Water Heating

Pierce's "Practical Manual of Steam and Hot Water Heating."

Cloth, 340 Pages. Price, Postpaid, $2.50

Abundantly informative concerning the fundamentals of heating. Refreshingly understandable—not a formula in the book. All conflicting tables reduced to a comprehensible common working basis. Overthrows false ratings. Creates a new era in heating values and establishes a basis for successful practice.
